

TRENCH FEATURES: 10-15mm & 28mm

These Trench Terrain features are thermoformed using a lightweight, strong, tough, durable, high impact polymer. Available unflocked Light Brown (BR), Ready Flocked (FL, Noch 50210), Desert Flocked (DS) and Desert Transition Flocked (DT) to complement the Desert Hexon Boards. The trenches are hand flocked, so the amount of green will vary. They are designed to sit on top of Hexon Terrain boards, but can be used independently.

TRENCH FEATURES for 10-15mm Gaming

Width of trenches at trench base 20mm, depth of trench 28mm approx. (Hexes100mm approx across flats)
