

AMERICAN WAR OF INDEPENDENCE from Kallistra

These 12mm, (1:144) cast in **lead free pewter**, each pack complete with precision moulded brown plastic bases, (except Command packs). The initial releases include most of the common troop types involved in the conflict. We aim to introduce Hessians, French, and other less common types in due course. The 'trail march' packs represent men moving from one destination to another along a trail, or through open country, as opposed to those marching to attack with fixed bayonets. All packs include command apart from the obvious ones such as Guns, Dragoon Horse Holders and Mounts etc. Designed for a wide range of table top games, which enables you to fight BIG battles on SMALL tables. Some figures are strip mounted to facilitate ease of painting and mounting onto the supplied bases. The range is constantly being expanded. Keep a check on the web site for further releases.
