

RESIN Features

Medieval Fortifications for 10-15mm Gaming

These new modular fortification features are made using a lightweight, strong, tough, durable resin. The single features are designed to sit on top of Hexon Terrain boards or single hexes, but can be used independently. (Pieces fit into the single hexes 100mm approx. across flats). The grey colour has been chosen to aid painting/finishing the pieces. The gate towers have the option of doors, these are available individually, and cast from lead free pewter. The open gateways allow miniatures mounted on 40mm wide bases to pass through. ALL FEATURES ARE SUPPLIED UNPAINTED.
